

# Projector

## mounts

**Mount any brand and type of projector to any Audipack system.**

*Being one of the first to offer professional projector presentation accessories, Audipack products are state-of-the-art and are proven high quality.*

*The Audipack range of projector accessories and system varies from standard products, such as ceiling mounts, lifts and housings, to custom built stackframes and flight cases with integrated lift systems.*

**Audipack®**

*It's great to have solutions...*

## Mounts any **brands** and **type** of projector

### Brand related projector mounts

**With an Audipack projector mount, your projector is quickly and easily mounted to create a presentation solution. Audipack projector amounts are designed to precisely fit any brand or type of projector.**

The interface makes it possible to swap projectors without the need to change the ceiling mount or lift. When necessary, switching the projector takes little time. Audipack designs and manufactures all mounts in- house and includes the manufacturers' recommendations in the product characteristics.

The result is a perfect fit between mount and projector, ensuring the safest and most rigid product build.

### Universal projector mounts
